

CUISINE

Head chef Karl Aichholzer has delivered maximum quality and fantastic creations for many years. Using products from the region (mountain cheese and butter from the establishment's own Bichlalm, home-baked farmhouse bread, home-made jams, trout and salmon trout bred by the restaurant, etc.), the culinary team at the Bichlhof will take your breath away with a series of culinary delights. Savour a wonderful meal and enjoy a wide selection of exquisite wines from the impeccable wine cellar.

The staff will be happy to serve lactose- and gluten-free meals in addition to noting any allergies specified by diners when making a reservation. It goes without saying that our menu always features a range of vegetarian delicacies.
