

ACCESSIBLE ACCOMMODATION

Do you prefer a taste of the finer things? Then a stay at the Hotel Schloss Leobenberg is sure to meet your every need. The palace has sat enthroned above the world-famous city of Kitzbühel for over 400 years. Having been run as a hotel since 1967, it underwent a careful renovation in 2008 in order to meet the highest demands in contemporary style. Since then, the palace and its tower – which is listed as a historic monument – have combined the magic of a long-forgotten period with the luxury and lifestyle of a new millennium. The five-star hotel features a very generously sized accessible room with its own terrace. This room has a central location in the immediate vicinity of the lift. The culinary delights on offer at the accessible Residenz Restaurant round off the harmonious overall impression of the Hotel Schloss Leobenberg.
