

Opening "KC 750" in Kitzbühel

A meeting place for young people in Kitzbühel's oldest building.

11.04.2022 / After two years of preparation and planning, construction work has been completed and a new meeting place has been created for young people from Kitzbühel and guests who are young at heart.

On April 20th, 2022, the city of Kitzbühel will open the new meeting place and event venue in the heart of the city center. In the oldest building of the Gamsstadt starts "KC 750 - The Culture Café", which was planned on the occasion of the 750th anniversary of the town. Already on the opening weekend, which takes place until April 24th, 2022, a small foretaste is offered with live concert to game night. In the future, the Kultur Café will open its doors to young people, students, the young and the young at heart, as well as creative people and those interested in culture, from Wednesday to Sunday, from 10.00 am to 12.00 pm.

The "KC 750" - program offers a wide spectrum from coffee house culture during the day to bar culture in the evening and events on the weekend, thus providing a place for the young and the young at heart to see each other and spend time together. Events from various fields are planned together with the youth, with a focus on local or regional youth and artist promotion. For numerous event formats such as concerts, film evenings, poetry slams, workshops, cabaret, exhibitions, karaoke evenings, DJ lines and much more, Kitzbühel clubs and institutions also have the opportunity to rent the barrier-free premises with 140 m² of space and 60 seats, including staff.
