The four-day historic automobile event will be held for the 35th time in 2022 in the most legendary sports city in the Alps, and thus counts as a true tradition with a renowned reputation.

Mercedes Benz 300 SL, Jaguar SS 100, Bentley 4 1/4 Open Tourer & Co.

A rolling museum of automotive history in the mountains presents itself again this fall in the Gamsstadt, when from Wednesday, September 07th, 2022 to Saturday, September 10th, 2022 historic models of the car brands of Mercedes-Benz, Bentley, Bugatti, Lamborghini, Porsche, Ferrari, Jaguar, Rolls Royce and many more go on a joyride around Kitzbühel. At the 35th Kitzbühel Alpine Rally, more than 160 fascinating classic cars will take up position at the foot of the Hahnenkamm - Kitzbühel's legendary local mountain. From here, three daily stages - a total of around 600 kilometers - will take them along the most beautiful Alpine roads through valleys past lush green meadows and snow-capped peaks of the Kitzbühel mountains. This year's rides lead, among other places, through the Pinzgau as well as the Zillertal. Thus, a perfect combination of the natural scenery of the Tyrolean mountains coupled with the charm of Kitzbühel as the most legendary sports town in the world is guaranteed.

Exclusivity in the starting field is given with a construction year limit of 1975. There are two categories for the participants to choose from: the Sporty Trophy or the Classic Trophy.

As every year, the highlight will be the finish on Saturday, September 10th, 2022 at around 2.30 p.m. with the big vehicle parade in the center of Kitzbühel for the finale of the Alpine Rally - a spectacular highlight in a class of its own. It should not be missed when the cars, which have real history behind them, dominate the streetscape in and around Kitzbühel.
