

Museum Kitzbühel honors Hilde Goldschmidt

New special exhibition in summer 2022.

14.06.2022 / From June 25th to October 29th, 2022, the special exhibition "Hilde Goldschmidt. Art and Self. The Artistic Estate at the Museum Kitzbühel" can be marveled at.

Art History of (Post-)Expressionism in Kitzbühel

Throughout the summer, the Museum Kitzbühel once again captivates visitors with a new special exhibition. This time it revolves around the German painter and graphic artist Hilde Goldschmidt. The Jewish woman, born in Leipzig, spent the whole of her life in Kitzbühel: with interruptions due to National Socialism and the years after the Second World War, a total of 36 years. As an artist, she overcame all odds and took her fate into her own hands. The artistic estate is the testimony of her remarkable life and a unique document of the Austrian art history of the 20th century.

With the title "Hilde Goldschmidt. Art and Self. The Artistic Estate at the Museum Kitzbühel." the exhibition opens on Friday, June 24th, 2022 at 7.00 pm and can be visited from then on. Visitors can enjoy the works of the artists until October 29th, 2022 and be inspired by their artistic sensibility. Guided tours of the special exhibition will be held every Thursday at 6.00 pm between July 01st and September 17th, 2022. Curator tours will also take place on four dates (June 25 / July 14 / August 04 / September 15).

Also eagerly awaited is the contemporary witness talk Hilde Goldschmidt on Thursday, September 15th, 2022 from 8.00 pm. Finally, there will also be a conference on "Hilde Goldschmidt. Art and Self." will be held on Friday, October 14th, 2022.
