#wearekitzbuehel | KITZ Office im START.N

Another quick win from the branding process.

17.10.2022 / New ideas have been realised at START.N since last year. As part of the branding process, Kitzbühel Tourism provides its own workspace for rent.

START.N offers quick and uncomplicated affordable rental space for innovative start-ups, young entrepreneurs and people re-entering the industry. In addition to the classic workspace, the start-up centre offers a broad network as well as ideal opportunities for inspiration through events and people on site.

Office for START.N

The next deadline is waiting and the necessary concentration is missing. It's time for a change of scenery to be able to complete the project with care and spirit in peace and without distractions.

The completely furnished new office of Kitzbühel Tourism, designed with attention to detail, is now the solution for all those who want to work with focus, make phone calls or create innovative ideas. The fully equipped workspace in the START.N start-up centre can be rented for half, full or several days from EUR 50.00 - high-speed internet, printing facilities and much more included. If required, a large meeting room and an open space or lounge are also available for rent. For culinary delights, a visit to the Genusscafé is worthwhile.

It's best to make a reservation in good time at bit.ly/3S10p3i and relax while efficiently completing the next important tasks.

#wirsindKitzbühel in implementation

In the development of the new image of the future of Kitzbühel, on which around 70 Kitzbühel residents have been working together on a voluntary basis since last year, the Workation working group also aims to elicit the existing potential and create concrete, bookable products.

Workation working group leader Thomas Hechenberger is very committed in this area: "If you want to achieve something new, you have to go unknown ways. Relying on the Workation trend is certainly a courageous, unknown path, but with great opportunities. Success will depend on the quality of the implementation - it needs quick wins, but also a lighthouse project with charisma and a follow-up effect."

All information on the branding process can be found at marke.kitzbuehel.com.
