

World Venture Forum 2024 in Kitzbühel

Boom & Bust - A decade of transformation.

The World Venture Forum (WVF) 2024 will take place from July 1st to 6th in the picturesque setting of Kitzbühel and is themed "Boom & Bust." In its tenth edition, the forum will gather renowned investors and experts at various locations, some over 1,000 meters above sea level, to discuss innovation, the future, high-tech, and venture capital.

The World Venture Forum 2024 is more than a conference—it is a platform that provides understanding of the dynamic "Boom & Bust" cycles and shows how, despite global uncertainties, opportunities can be seized through innovation and collaboration. This forum offers a unique opportunity to learn directly from leading industry minds and gain valuable insights into the future of the global economy. What began as a networking event for the European Super Angels Club has evolved into a week-long conference of global reach. Prominent investors and professionals will highlight the latest trends, challenges, and opportunities in the investment market at various locations around Kitzbühel. Over 500 participants from more than 25 countries, including delegations from Japan, India, Israel, the United Kingdom, Canada, Sweden, and the USA, are expected, making the forum a melting pot of the international financial world.

Program Highlights:

:: Discussion Panels and Round Tables: In-depth discussions on the latest developments in high-tech and venture capital.

:: Networking in a unique atmosphere: The idyllic setting of Kitzbühel provides the perfect backdrop for establishing new contacts and nurturing existing relationships.

:: Innovation in times of change: An examination of global economic disruptions and their impact on the innovation landscape.

:: Personal exchange and trust-building: The forum places great emphasis on personal relationships and offers numerous opportunities for successful co-investments.

Secure your place at the World Venture Forum in Kitzbühel and be part of this influential event that shapes the landscape of the venture capital and high-tech industries.
