

220 | Kammbergalpe-Buchensteinwand

distance	5,3 km	difficulty	average
altitude meters uphill	570 m		
starting point:	St. Jakob im Hause-St-Ulrich a. P./Flecken		
destination point:	Buchensteinwand		
best season:	MAY, JUN, JUL, AUG, SEP, OCT		

Altitude profile

Description

From the hamlet of Flecken in Ortisei a.P., the trail leads up a forest path in serpentines to the Kammbergalm. From here, a steeper section of trail with a gradient of approx. 16% leads to the apex of the Buchensteinwand. A flat section takes the biker to the Buchensteinwand mountain inn. The highlight of the tour is the 30 m high Jakobskreuz (St. James' Cross), which is completely accessible.
