

Doctors association Dr. Gredler and Dr. Schwentner

<p>Surgery and sport traumatology. Appointments only. Please call to make an appointment.
</p>

Description

Nothing beats personalized care. We do not see ourselves as white gods, but as understanding listeners, innovative specialists and professionals in medical care. We combine comprehensive, medical know-how with the latest, medical findings. We treat our patients, 90% of whom come from the region, in our practice in Reith near Kitzbühel or, if surgery is required, in the Kursana Sanatorium. Our many years of experience as chief physicians and surgeons give confidence and security - the first prerequisites for successful treatment.
