

**MARVEL - GRASP - UNDERSTAND** is the simple yet ingenious motif behind exciting water features, Austria's longest barefoot path, the turbulent beehive, a giant witches' pot, the Blue Wonder, the 400-year-old Simonalmb and many bewitching ah-&oh phenomena.

**parking:** Parking lot valley station Söll - free of charge

The Hexenwasser in Söll is known as a place for explorers, dreamers, the curious and all those who have not yet forgotten how to be amazed. At Hexenwasser you will be looked after by our Hexenwasser team every day - come rain or shine. We will show you paths, places and chambers of wonder. We tempt you to listen, to look without intention, to think barefoot.

Of course, the witches themselves play a very important role in this place of longing, passing on their witchcraft knowledge to visitors as wise and mystical women. The witches in Söll have their very own recipe for these bewitched times: You can book your time with the witch - 7 HeXpeditions at [store.hexenwasser.at](https://www.store.hexenwasser.at)
