

Hospital St. Johann

<p>Hospital of the region</p>

Description

With 274 beds, the St. Johann in Tyrol District Hospital is a hospital providing extended standard care in the Kitzbüheler Alps region, nestled between Wilder Kaiser and Kitzbüheler Horn.

With the departments of internal medicine, orthopedics, trauma surgery, general surgery, gynecology and obstetrics, pediatrics and adolescent medicine, anesthesiology and intensive care, radiology and a consiliary department for ENT, we cover a broad medical spectrum.

As one of the first fully digitalized hospitals in Austria, BKH St. Johann i.T. is a pioneer in digital documentation.
