## Description

The range of the **grocery store** includes more than **11,000 products** in a wide variety of price categories with a strong **focus on regionality**. Here you will find, among other things, **dairy products** from **Tyrolean organic mountain farmers**, **fresh fruit** and **vegetables** from the region, a large selection of **breads** and **meat** from organic farms. Articles from Tyrolean valleys, Italy and all over the world are listed here. As a modern local supplier, M-Preis is inspired by the modern cuisine approach: the range also includes **organic**, **gluten-free** products and hip **urban drinks**; however, the selection also offers everything you need for a weekly shop – if it simply has to be a lot and cheap.

In the comfortable corners of the in-house '**Baguette**' **bistro** you can relax and drink **coffee**, have **breakfast**, enjoy freshly prepared **lunch menus** during the break, or simply get a quick **snack**, **cake** or **bread** for in between.
