Description

From the starting point at the Wagstaett lift, the Perlberg tour runs parallel to the Askara tour through the areas towards the south before branching off at the Sintersbach stream some 2 kilometres along the route. The path follows the gentle incline alongside the Sintersbach stream and heads over the romantic Weiss-Wast hill until it reaches a forest trail. At this point, the route turns back down into the valley and follows a wide loop at the foot of the Perlberg running through dense forests back towards the centre of Jochberg.
