Altitude profile

Description

An easier going tour that doesn't cross the piste very often. It takes you to the top of the Resterkogel, where you can marvel at the views in every direction. The tour starts gently next to the wide ski piste, and takes you along the quieter section of piste 70a. About 20 minutes into the tour, you cross the piste, and go into the woods while staying on the right side of the piste. Taking a left turn in the woods the route brings you out on the right side of the piste where you head straight up the slope to the Moseralm restaurant. As you get to the restaurant you change to the left side of the piste and follow the marked slope, piste 77. Then changing back to the right side of the piste, it takes about 20 minutes to cover the last stretch up to the top of the Resterkogel.
