Altitude profile

Description

A tour through an impressive landscape in the hinteren Spertental valley. The tour starts at the T-bar lift in Aschau, and takes you up the left side of the piste. You follow ski route 56 up all the way to the top. The ski route has a lot less traffic than the ski pistes, so you will not encounter as many skiers coming in the other direction. The ski route takes you through the forest and fields up the side of the valley, in an area away from the pistes, up to the top stations of the Hochsaukaser and Hieslegg lifts.
