Description

Timok's Alpine Coaster is the absolute highlight of Timok's Wild World! Off you go at terrific speed, on two rails down the mountain whilst enjoying the breathtaking **panoramic view** of the surrounding mountain landscape - from the Wilder Kaiser to the Wildseeloder, here you can see it all. **Fun for the whole family**, in both summer and winter! A ride of Timok's Alpine Coaster is guaranteed to light up children's eyes and should therefore be a permanent feature of every holiday.

"Full speed ahead" is our motto at the Streuböden mid-station. Timoks Alpine Coaster takes you downhill very fast but safe and comfortably up again. You choose your own speed. But watch out for the trappy **"Kaiserquelle"**, the **"Riesenschlange" (big snake)** and the **"360°-carousel"**. And do not forget to laugh, because at the end you can take a souvenir photo of your fast ride!

Length: 1,160 m | Difference in elevation: 115 m | Time: 7 min.
