## Description

From the starting point at the Wagstaett lift, the Wildalm-Schleife loop runs parallel to the Perlberg-Tour through the area towards the south, along the Sintersbach stream and over the romantic Weiss-Wast hill. From here it then follows the Sintersbach across some steep sections to the impressive Sintersbach waterfalls. The route then leads across the beautiful mountain meadows to its peak at the Wildalm. From here it runs back through the forests, with sensational panoramic views of the valley, back to the centre of Jochberg.
