

Q&A | current COVID-19 information

1. Current situation and safety measures

The following rules are currently valid:

- Compulsory FFP2 masks only in highly vulnerable areas (e. g. hospital), in public transport including stops and in customer areas of essential retail (e. g. pharmacies and food retail).
- The 3G rule restricting access in night catering, standing catering and bar service is lifted.
- The validity of the third vaccination is increased to 365 days (from 9 to 12 months).
- The obligation to appoint a COVID-19 representative and to draw up and implement a COVID-19 prevention plan will only apply to meetings of more than 500 people (instead of 50 people).
- In justified cases, stricter rules may be laid down at the place of professional activity in order to prevent the further dissemination of COVID-19.
- No general curfew
- In addition to the nationwide framework conditions, the federal states can, as in the past, issue stricter rules.
 - The measures will apply for the time being until 8 July 2022

2. Pre-Travel-Clearance

- Pre-Travel Clearance Form is mandatory for arrivals from high incidence and virus variant regions
- 3G rule for entering and leaving the country – recovered | vaccinated | tested
- More information on <https://www.welcome.tirol/getting-here-1>
